-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 January 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to a pet food product and a process for producing a pet food, classified in class 424, subclass 442.
- II. Claims 18-25, drawn to a process of promoting comprehensive weight management in companion animals, classified in class 424, subclass 442.
- III. Claims 26-33, drawn to a process for increasing lean body mass of a companion animal, classified in class 424, subclass 442.
- IV. Claims 34-41, drawn to a process for enhancing the satiety and decreasing the voluntary food intake of a companion animal, classified in class 424, subclass 442.
- V. Claims 42-49, drawn to a process for decreasing blood urea nitrogen levels of a companion animal, classified in class 424, subclass 442.
- VI. Claims 50-57, drawn to a process for reducing the risk of ketosis of a companion animal, classified in class 424, subclass 442.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II-VI are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different

Art Unit: 1618

process of using that product (MPEP § 806.05(h)). In the instant case the product can be used for a different purpose, such as using the pet food to gain weight.

Inventions II, III, IV, V, and VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. Each of the inventions treats a different patient. Patient one has a weight problem. Patient two has low lean body mass. Patient three has low satiety. Patient four has high blood urea nitrogen. Patient five has high risk of ketosis. Since the patients for each method of treatment do not have to be the same patient, this shows that the inventions are distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1618

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
